

Landa Water Jet Surface Cleaner

LANDA®

Water Jet is the Mercedes-Benz of the surface cleaning market. It handles easier, cleans faster and holds up better under the toughest conditions.

The Water Jet's spray bar spins at 2000 RPM and can be adjusted to blast concrete but not dig up asphalt or wood. The rotating bar and shaft are made of stainless steel with sealed precision guide bearings for low maintenance and a long life.

A holster-mounted trigger gun and insulated wand make for convenient spot cleaning in hard-to-reach places.

Other features include:

- Made of durable, rust-free polyethylene, for easy handling, but weighs only 45 lbs.
- Pneumatic tires on steel wheels make for easy maneuvering on all surfaces;
- Easy-to-clean, in-line filter keeps spray nozzles from plugging;
- Auto switching between surface cleaner and holster-mounted wand;
- Tri-lingual warnings and operating instructions;
- Collapsible handle for ease in transporting.

Landa Cyclone Surface Cleaner

LANDA®

The economy model flat surface cleaner, Landa's Cyclone is the price-competitive surface cleaner with many of the same design features that have made the top-of-the-line Water Jet so popular.

The Cyclone's non-adjustable spray bar also spins at 2000 RPM and seemingly glides across flat surfaces riding on the evenly balanced tubed pneumatic tires and swivel caster wheel.

The rotating bar is made of stainless steel with medium-duty sealed precision guide bearings.

Other features include:

- Durable, rust-free polyethylene spray housing;
- Fatigue-free trigger handle turns unit on/off for operator safety;
- Tangle-free hose connection for ease of maneuvering; and
- Tri-lingual operating instructions for added liability protection.

Landa Industrial Sandblasters

LANDA®

For the extra-tough cleaning jobs, wet-sandblasting is the dust-free solution.

Landa's sandblasters attach to a hot-or cold-water pressure washer and, using a venturi, mixes sand or other abrasive media with the high-pressure spray to create enough cleaning power to strip paint off concrete and barnacles from a ship's hull.

The sandblasting nozzle is made of tungsten carbide for long life. There are two models—a top-of-the-line steel pot (photo at right) with tight-fitting lid or with a probe only.

Other features include:

- Quick-connect coupler for ease in attaching sand probe or pot;
- Valve for metering the flow of the media;
- Tubed, pneumatic tires for easy maneuvering.

Pit Cleaner

LANDA®

Cleaning sludge from the bottom of a collection pit or tank is neither easy nor fun. But the Pit Cleaner makes it bearable.

An extended wand is attached to a cold- or hot-water pressure washer with a minimum of 1000 PSI. The pressure is channeled so that it creates a vacuum, capable of suctioning mud and sludge from the bottom of a pit, tank or even a pond.

The sludge is deposited into a porous collection bag, mounted on a hand truck, where the water drains out and the sludge is allowed to dry for proper disposal.

Vinyl Skid Covers

LANDA®

Custom-designed covers provide all-weather protection for Landa's skid-mounted pressure washers.

Made of seamless, truck-tarp-quality, vinyl-coated polyester (18 oz. per square yard), the covers fit snugly over the equipment so there is no need to tie down the cover.

The covers are both waterproof and capable of withstanding high winds.

Goff's Curtain Walls

Build a Power Wash Cell to meet your needs. Goff's Curtain Walls™ increase useable floor space while controlling overspray, contaminants, climate, and noise levels. Curtain Walls™ glide easily on steel track and dual-wheeled rollerhooks. Made from a combination of 14-oz. heavy-duty, reinforced vinyl and double-polished 20-mil clear PVC material. Reinforced hems and chain-weighted lower hems add durability. Hook and loop fasteners on side hems attach to adjacent panels. Meet NFPA-701 requirements for flame retardancy. Curtains are also rot and mildew resistant. Standard model has a white vinyl top, clear PVC center, and blue vinyl bottom.

- #2 Brass tooth grommets on 1' centers
- 14 oz. reinforced vinyl white top section
- All seams double locked stitched
- Hook & Loop Fasteners allow adjacent panels to be easily attached to one another
- 20 mil. double polished clear window
- All sections joined together using mildew/rot resistant thread
- 14 oz. reinforced colored vinyl section (your choice of over 12 different colors)
- Chain weighted lower hem
