Environmentally Clean Operating System

If you're looking for a "green" solution to wastewater disposal, Landa's patented & revolutionary ECOS Mobile Wash & Reclaim System *IS* right up your alley. This environmentally friendly, patented mobile wash system combines a hot water pressure washer (4.7 GPM @ 3,500 PSI) with a wastewater recovery & filtration system atop a trailer unit, making it simple to dispose of the wastewater from your pressure washing operation, or recycle & reuse it. Separate yourself from the pack with the Landa ECOS.
